The Young Quee.
The young Queen's face like the moon When the May nights are new;
The young Queen's voice is like a tune

That lutes make music to: The young Queen's hair is like ripe corn The high noon looks upon; Her laugh a bird-song in the morn Rising to greet the sun.

And wheresee'er the young Queen goes She draws men's eyes to her, Even as when the south winas blows The forests ben'll and stir.

My masters, would you know her name,
The land that knows her sway?
Not one of you, whate'er his fame,
But owned her rule one day.

Not one of you grown cold and wise But one day thrilled to see The royalty of her girl eyes, Her tender majesty.

First Love, her name, my masters is, And long her reign in truth O'er that lost, lovely land of bilss, The Kingdom of Mun's Youth. —Theodosia Garrison,

THE SINGERS.

By HENRY W. LONGFELLOW.

Other selections from this author, his portrait, autograph and biographical sketch have already been printed in this series.

OD sent His singers upon earth, with songs of sadness and of mirth, That they might touch the hearts of men, And bring them back to Heaven again,

The first, a youth with soul of fire, Held in his band a golden lyre; Through groves he wandered, and by streams, Playing the music of our dreams.

The second, with a bearded face, stood singing in the market-place, And stirred with accents deep and loud The hearts of all the listening crowd.

A gray old man, the third and last, Bang in cathedrais dim and vast, While, the majestic organ rolled Contrition from its mouths of sold.

But the great Master said: "I see No best in kind, but in degree; I gave a various gift to each." To charm, to strengthen, and to teach.

"These are the three great chords of might, And he whose ear is tuned aright Will hear no discord in the three. But the most perfect harmony."

In view of the fact that the action of Judge L. L. Lewis, the present Republiof calling for troops in Petersburg in 1876. when he was United States attorney for the Eastern District of Virginia, has been brought into the present campaign, the records have been appealed to, and it is found that they tell a most interesting story on the subject and his connection

The following is taken from the Richmond Dispatch of November 6, 1876;

"Saturday afternoon the people of Richmond were astonished to hear that a company of United States solders had passed through the city on their way to Petersburg. Near as we live to that goodly city, no rumor had reached us of disturbances there or of any apprehended, and the actions of the President, therefore, caused profound wonder. As the stay of the soldiers at the depot was very brief, and they seemed really not to know for what their services were needed, little light was thrown upon the mystery until Saturday night, when the following information reached here from our correspondent in Petersburg:

"November 4, 1876.

"Company B, Second Regiment, United States Artillery, Major J. C. Breckenridge commanding, arrived in this city this afternoon on the mail train from Washington. The company numbers twenty-eight men, and left Fort Foote, opposite Alexandria, this morning at 3 o'clock, in obedience to telegraphic orders received last night from the general commanding the Department of the Atlantic. Their arrival was a surprise, but they had not been at the depot five minutes before the news had spread through the city. They come, of course, in response to the request of C. P. Ramsdell, United States marshal for this district, backed by other Radicals, high and low, who profess to fear intimidation on election day. And they are sent here with the foreforn hope that their presence may help to elect Dr. Jorgensen. Vain hope! A large crowd of negroes son collected about the depot to see the soldiers, and the rejoicing among the colored people is general and open. They are in the best of humor-both males and females—and the matter is discussed by them in crowds all about the streets.

"The troops officers and privates, were most kindly received by the white citizes."

and the matter is discussed by them in crowds all about the streets.

"The troops officers and privates, were most kindly received by the white cluzers, and a friendly, and courteous intercourse has already been established by which the Federal visitors are ade to feel at home, in fact no objection is offered to the sending of troops to this city except this. That the act may be inferred as casting a siur upon the fair reputation the community enjoys for peace and good order. The feeling towards the soldlers is of the kindest, as shown in the hospitality already shown them, for which they expressed their appreciation. The commanding officer at orce reported to the United States Marshall at the Custom House and the troops will be quartered in that building to-night. Other arrangements will be made for they to morrow.

harder for the election of Tilden and Hilton.

"The following is the letter of Major Cameron to Marshall Ramsdell, to which the latter so irrelevently replied through the columns of the National Republican of yesterday, accompanying with affidavits of illiterate negroes as to the irriling disturbances at the polis in this city in May last and as to their fear that the negroes could not fairly vote here unless troops were sent to protect them. It was on such affidavits that Ramsdell made a requisition for soldiers. Will Discuss the Visit of Presi- Mayor Cameron to Marshal
